MOHAMMED KHALED

Data Analyst | BI Analyst | Junior Data Scientist

Brussels, Belgium • Open to Luxembourg & Brussels • khaledalam893@gmail.com

LinkedIn • GitHub • Portfolio

PROFESSIONAL SUMMARY

Final-year BSc Data Science student with hands-on experience building production Power BI dashboards, Python ML pipelines, and agentic AI systems with Microsoft Copilot Studio and the Model Context Protocol. Delivered a full-stack ESM Middle Office risk dashboard and a Copilot agent for materials discovery inspired by Microsoft × PNNL research. Fluent in English (IELTS Band 8); seeking junior Data Analyst, BI, or Data Scientist roles in Luxembourg or Brussels.

CORE SKILLS

- **Data & BI:** Power BI, DAX, SQL, Excel, Looker, Data Modelling, Dashboard Design
- **Python & ML:** Python, Pandas, Scikit-learn, XGBoost, TensorFlow, SHAP, Prophet, PySpark
- **AI & Agents:** Microsoft Copilot Studio, Claude Code, Model Context Protocol (MCP), LangChain, FAISS, RAG
- **Cloud & Tools:** Google Cloud Platform, Docker, Git/GitHub, Streamlit, Jupyter, SQLite

PROFESSIONAL EXPERIENCE

Data Analyst Intern — Agiliz *Belgium*

BI, Python & Machine Learning

- Designed and shipped interactive Looker dashboards that standardised client reporting and cut manual reporting cycles across multiple accounts.
- Built a Python-based lead generation pipeline that automated prospect extraction, enrichment, and scoring, replacing repetitive manual workflows.
- Contributed to production Power BI assets and ML workflows, translating stakeholder requirements into polished visual analytics delivered under tight deadlines.

SELECTED PROJECTS

MatterMind — Copilot Agent for Materials Discovery *Apr 2026*

- Built an end-to-end Microsoft Copilot Studio agent inspired by Microsoft × PNNL research, enabling natural-language querying of materials-science data with Claude Code and MCP integrations; shipped 6 of 7 pipeline stages.

ESM Middle Office Investment & Risk Dashboard *Apr 2026*

- Delivered a production-grade portfolio project against the European Stability Mechanism's public traineeship brief (Job ID 349): Python ETL, SQLite warehousing, SQL analytics, and three Power BI dashboards in an ESM-branded dark-navy theme; application formally submitted.

MCP Data Cleaner — Automated Data-Quality Agent *2026*

- Engineered a Model Context Protocol server that lets Claude perform deterministic data-cleaning operations on CSV and tabular files directly from chat, reducing repetitive preprocessing.

EDUCATION

BSc Data Science, Protection & Security — Thomas More University, Mechelen *Expected Sep 2026*

- Coursework: Machine Learning & Forecasting, Data Engineering, Statistics, Cybersecurity, Cloud Computing, Data Visualisation.

CERTIFICATIONS & LANGUAGES

- **Certifications:** Model Context Protocol & Claude Code in Action (Anthropic, 2026) • Python for Data Science, AI & Development (Coursera, 2025) • Analyze & Visualize Data with Looker (Google, 2025) • McKinsey Forward Programme & Hugging Face AI Agents Course (in progress).
- **Languages:** English — C1/C2 (IELTS Band 8) • Bengali — Native.
